

**CE**

FRICTION TYPE PAGING MACHINE

CP450K

01

Scope of application

Glass bottles, plastic bottles, metal cans, cartons, boxes, precision devices, hardware, auto parts, low-voltage electrical appliances, etc.

02

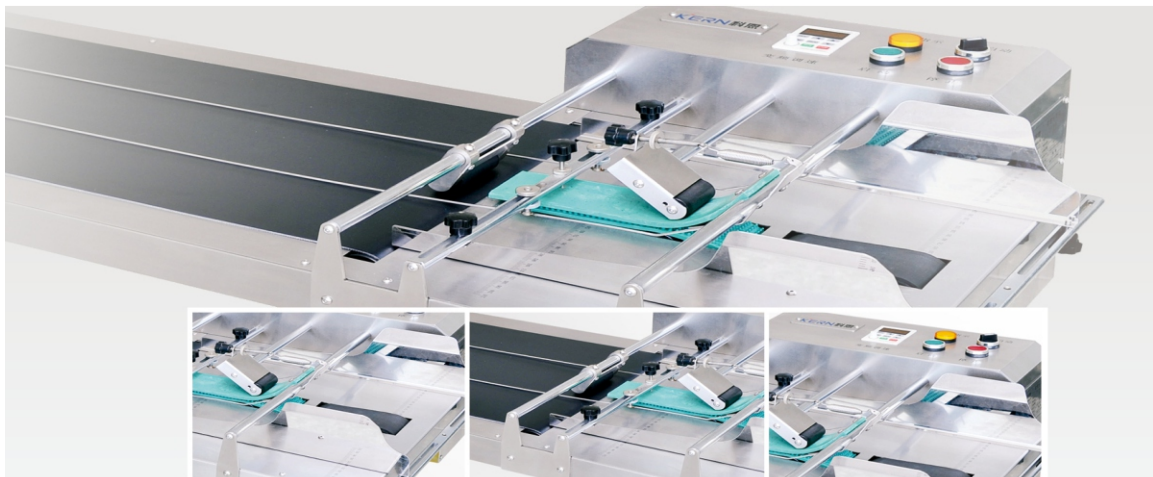

Use way

Used for conveying glass bottles, plastic bottles, cartons, paper boxes, metal products, auto parts, low-voltage electrical appliances, printing, spraying production date, batch number, anti-counterfeiting mark pattern for inkjet or laser machine, laser printer, give full play to the advantage of high-speed jet printing machine, greatly improve the work efficiency of jet printing. Reduce production cost.

03

Line industry

Hardware accessories, food, beverage, pharmaceutical, electronics, tobacco, chemical, auto parts and other industries.

Product Introduction

Product Model	CP450K	
Product Name	Friction Type Paging Machine	
Supply Voltage	AC220V-50HZ/AC110V-60HZ(Optional),Ground Is Required	
Motor Power	250W(High Speed)	200-180W(Low Speed)
Paging Band Width	60mm	
Running Width	80-400mm	
Paging Stable Speed	40-115m/min(High Speed)	10-50m/min(Low Speed)
Running Length	50-320mm	
Separation Thickness	0.02-5mm	
Conveyor Belt Finite Width	350mm(Factory Dynamic Balance Cutting)	
Conveyor Belt Finite Length	1000mm	
Outline Dimension	1500 X 630 X 900mm	
Speed Control	Inverter Vector Type	
Paging Performance	High Stability	
Power Device	High Speed,Phase Asynchronous Motor	Low Speed,Gear Reducer
Transmission	Gear/Chain/Belt/Paging	
Power Supply Protection	AC Integrated socket With Fuse	
Surface Industry	Drawing Polishing Treatment	
Fuselage Material	Stainless steel/Industrial Plastics/45# Steel Chrome Plating Treatment	
Machine Landing	Adjust The Foot	
Product Can Be Customized According The Pagination Product Characteristics From User!
